Technical Profile

- SQL
- HTM
L
- JavaScript
- Java
- CSS
- Git
- JIRA
- Bootstrap
- React
- Docker SQL
- Server
- MongoDB
- PostgreSQL
- Spring Boot
- Postman

Competencies

Testing and maintenance

After 5 years of experience with industrial programming career , I recognize that , If I spend all my desire for only exploring and learning programming , it gives me more fun and more interest to improve . On that way , I feel more joy and pleasure with Java . At the end of day I want to achieve , continously learn to programming (Java at the base) and sharing all experiences that programming and people enrich me .

Work History

2023-03 -

2023-09

Java Developer Intern

Grispi, Izmir

- Debugged and corrected computer programming errors with advisory from master developer.
- Wrote clean code for functional web applications under instruction of master developer.
- Attended IT meetings to discuss design and coding ideas with master engineers.
- Built databases and table structures for web applications.

Industrial Maintenance & Software Engineer

ATAKAS STEEL , Payas/HATAY

2017-12 -

2022-07

During this career I also responsible for coding and electrical maintenance . If I explain coding part of my responsibility in a simply way , The I/Os not coming from Web or some file etc... They come from field . For example temperature sensor gives my program 50 °C

Now , I can use these value for my program logic . For database part , we were storing the what happened to the product during production , for example these steel produced X speed , Y pressure , product ID , product status etc..

Projects and Knowledge

Please check my github profile to see projects that I made till now.
Learning;

Algorithm implementation API

design knowledge Code

reviews Programming

- Spring Framework Core Features - Spring IOC Container, Java-based configuration, Annotation-based configuration, Dependency Injection, etc
- Building Spring Boot REST APIs
- Exception Handling, Validation, Spring Boot Actuator, Transaction Management in Spring Boot App
- Secure REST APIs and MySQL Database
- Reactive CRUD REST APIs using Spring WebFlux and Reactive MongoDB
- Spring MVC Concepts
- Thymeleaf Fundamentals
- Integration Tests for Reactive CRUD REST APIs
- Spring Data JPA Repositories for JPA Entities
- Dockering Spring Boot Application
- Full Stack CRUD App. (React + Spring)

Education

2011-09 - 2016-06	<p>Bachelor of Science: Electrical, Electronics Engineering Technologies</p> <p><i>The University of Gaziantep - Gaziantep/TURKEY</i></p> <p>-Completely english education</p>
----------------------	---
